NEW ENGLAND REHABILITATION HOSPITAL
AT LOWELL
FIVE STAR QUALITY CARE

220 Pawtucket Street • Lowell, MA 01854
978-446-1514

In collaboration with **Saints Medical Center (SMC)**, Hemodialysis Services are now being offered at New England Rehabilitation Hospital at Lowell.

New England Rehabilitation Hospital at Lowell has joined with SMC Dialysis Center to offer hemodialysis services for patients receiving inpatient rehabilitation services. The wonderful staff and providers from the SMC Dialysis Center are now coming to our Lowell campus. Many of the highly skilled SMC clinical staff now renders the same quality dialysis treatment at the NERH-Lowell site, giving the continuity of care that our patients deserve.

The expert clinicians from SMC Dialysis Center have joined the New England Rehab team to afford a coordinated treatment plan providing both hemodialysis along with comprehensive rehabilitation services. Nephrology Associates of the Merrimack Valley is the physician group overseeing the medical aspects of hemodialysis services.

Moving forward, all patients, regardless of which current dialysis center they routinely attend, can be accommodated at New England Rehabilitation Hospital at Lowell.
